I feel like I am all over the place
Fly to the moon I got no time to waste
I feel like everything is so unusual
I think it's funny how that's just the usual

I feel like I am all over the place
Fly to the moon I got no time to waste
I feel like everything is so unusual
I think it's funny how that's just the usual

I think that I might go fly to the moon
Fly to the moon

Yea, I just gotta bring it back in to focus
A life like mine yea I'm blessed to know this
Couple tough years felt like hypnosis
Now, a leaf falls and I'm emotional
Blame the weather, like I know, of course I'm tryna grow
A life get stuck complacent when you don't
Still I'd leave this behind for a life back then
But I didn't think it then, guess I really understand
Now how everything can go from like good to bad
To better to worse
I some days don't get my flows, by those
A look at my heart by jus penning a verse
I find myself when alone I zone
Jus thinking bout everything this is my curse
People don't get it, they really don't get it
I'm better than ever but falling it's like

I am all over the place
Fly to the moon I got no time to waste
I feel like everything is so unusual
I think it's funny how that's just the usual

I feel like I am all over the place
Fly to the moon I got no time to waste
I feel like everything is so unusual
I think it's funny how that's just the usual

I think that I might go fly to the moon
