

# Keep Breathing

Ollie

I don't wanna smile while I drown that'd be acting  
I don't wanna live in the now it ain't lasting  
Don't be in rush growing up it's not freedom  
Devil speaking lies to your heart can't believe him  
Every night I dream it's a break from my conscience  
They say that I'm weak it's okay, least I'm honest  
I remember pulling in my drive car freezing  
Just to have a minute to myself keep breathing  
Said keep breathing...

Time been catching up, know I stress too much  
I'm afraid, so I break shoot the messenger  
Should build a cabin in the woods never call back  
When expectations kill your mood whatchu call that?  
Going through changes, these pages, I can't rewrite at all  
Lay awake in these ruins, tell myself that I'm human...

I don't wanna smile while I drown that'd be acting  
I don't wanna live in the now it ain't lasting  
Don't be in rush growing up it's not freedom  
Devil speaking lies to your heart can't believe him  
Every night I dream it's a break from my conscience  
They say that I'm weak it's okay, least I'm honest  
I remember pulling in my drive car freezing  
Just to have a minute to myself keep breathing  
Said keep breathing...
