

lost cause

Ollie

Bottled up
I'm tired of feeling like I'm stuck
Say, say I'm gon' do this by myself
Swear, I push through on the days is rough
Shit ain't luck

They'll told me I'm a lost cause, lost cause
Ain't a chance in the world
They'll tell me I'm a lost cause, lost cause
Ain't a chance in the world

It's like, even the days I put down us to hustle
I'm not about wasting no time
Learned from myself for the cope and the struggle
I told them one day I'm gonna shine
My motivation from the pain only double
I balance not easy to find
Almost a decade been chasing this dream
Yeah, I hear them talking but paying no mind
I'm moving up a couple levels every day, I don't slide
I put in the work until it's right
Some people quick to doubt themselves
That's a message I ain't never buy
I'm the type to speak on my thoughts
Hard to let them think what they wanna meet me
That's why honestly

I'm bottled up
I'm tired of feeling like I'm stuck
Say, say I'm gon' do this by myself
Swear, I push through on the days is rough
Shit ain't luck

They'll told me I'm a lost cause, lost cause
Ain't a chance in the world
They'll tell me I'm a lost cause, lost cause
Ain't a chance in the world

Nah, I don't need my faith in no chances
Been following god for my answers
I own all my masters
I don't need your label
I pay my own record advances
Spent the whole summer increasing my standards
It's crazy the power of will
Believed in myself from the day that I started
'Cause I know this shit I was writing is real
They always told me these broken wings won't fly
'Till I pass them by
Now they wish me well
I just hope inside of me, me
Yeah, how I feel inside of me
It's probably why

Bottled up
I'm tired of feeling like I'm stuck
Say, say I'm gon' do this by myself

Swear, I push through on the days is rough
Shit ain't luck

They'll told me I'm a lost cause, lost cause
Ain't a chance in the world
They'll tell me I'm a lost cause, lost cause
Ain't a chance in the world
