

One Day

Ollie

Who's to say
If I've been on the right track all I do is doubt
Constant displays
Cause I don't wanna bring too much attention on myself
Can't change a thing
When you stuck inside your home town living out a lie
That's settling
But then again, who isn't

Am I paranoid, losing joy
Thinking that world's gunna end one day
Can't fill the void, missed the point
Time is passing

I wanna fly to New York
Fall in love in Colorado
Let the road choose where I go
Buy a couple tickets on a one way train
I wanna sail the ocean
Underneath a northern light show
Tell you bout the things that I know
Yeah I don't wanna say that well do it one day
I'm living
I'm living
Yeah I'm living
I'm living

Open my heart, find my voice
I'll overcome this life of choice
I can't lie
No, I can't lie

I wanna fly to New York
Fall in love in Colorado
Let the road choose where I go
Buy a couple tickets on a one way train
I wanna sail the ocean
Underneath a northern light show
Tell you bout the things that I know
Yeah I don't wanna say that well do it one

I wanna fly to New York
Fall in love in Colorado
Let the road choose where I go
Buy a couple tickets on a one way train
I wanna sail the ocean
Underneath a northern light show
Tell you bout the things that I know
Yeah I don't wanna say that well do it one day
I'm living
I'm living
I'm living
I don't wanna say that well do it one day

I wanna sail the ocean
Underneath a northern light show
Tell you bout the things that I know

All these things that I know
