

Outsider

Ollie

Always on the outside lookin' in, looking in
Never was the best at fittin' in
Now people tryna tell me that I changed, that I changed
But they don't understand where I been

Okay, I'm back!
I feel like this music my self worth
Finally been putting my self first
All this time at the bottom; I like dirt, I like hurt
And people who laughing at me
Forget that for a minute, I've been doin' business
I ain't got no limits, I possess the difference
If I'm honest, we ain't even close to finished
You gon' listen to us speak now
We the ones who you never let speak out
Always on the outside of the in-crowd
Every label just missed out
Maybe that's why they pissed now
Lotta rap acts bitin' my shit now (now!)
If you ain't 'bout the music, then sit down
Guarantee this a hit now
Got me feelin' like I run The 6ix (6ix)
Name another do it like this (this!)
Numbers don't lie, check the stats, boy
I've been strictly only makin' hits (hits!)
I still ain't get invited like the other artists
That's okay with me, 'cause I stay workin' harder
Try and set the bar, I just take it higher
Some things never change, I'm an outsider (I'm an outsider)

Always on the outside lookin' in, looking in
Never was the best at fittin' in
Now people tryna tell me that I changed, that I changed
But they don't understand where I been (I been!)
Always on the outside lookin' in, looking in
Never was the best at fittin' in
Now people tryna tell me that I changed, that I changed
But they don't understand where I been

Okay, I'm-
Ain't no competition
Most these other rappers rappin' repetition (oh yeah!)
Name a couple drugs and the drink they sippin'
Pray I'm stoppin' now, that's what they all wishin'
Well, don't get too excited
Fanbase now is only supersizin'
All the fans vibin', you are not survivors
So get out the way and please keep it quiet, shh
Talkin' to me, better straighten up
Anybody sleepin', go and wake 'em up
I don't pay for love, I have paid enough
This is real rap, not your double cup
I am next up, there is no debate
Only real relate, if you don't, you fake
You gon' learn soon, I ain't one to play
I'm the one who get it done, no delay
I'm the same kid from the same spot

Better pick a side, don't flip-flop
I am underground, I am hip-hop
I'm the new wave, comin' nonstop
Always counted out, think they missed the passion
I am done askin', I'ma go and grab it
I got what they lackin', you ain't seen me actin'
I take all the doubt, I'm gon' make it happen (make it happen)

Always on the outside lookin' in, looking in
Never was the best at fittin' in
Now people tryna tell me that I changed, that I changed
But they don't understand where I been (I been!)
