

Rise

Ollie

They don't wanna see me rise
No, oh
No, oh
No, oh
They don't wanna see me rise
No, oh
No, oh
No, oh

They don't wanna see me rise, no, oh
They just wanna see me fall
When I've been givin' my all
I'm just gonna do it my way
My own way, my own way
I'm just gonna do it my way
My own way, my own way
Forget what they say

Dropped out of school on my first day
And I did that shit twice
And I ain't sayin' that 'cause I'm proud of it
I'm sayin' that cause it turned my dark days to light
Yeah, puttin' work in
Everybody sayin' that it's workin'
These days I'm feelin' like a new person
Guess that's why I'm up late so determined, damn
We on, lookin' like Deion
High-step into the end zone, and beyond
Slick with bars got you thinkin' I'm a phenom
Chillin' on the wave they said I never could be on
Like woo, look what we did
Remember way back when I kept this hid
People always said I couldn't write no hits
Now me and my team we're just doin' it big
Do it big for my hometown, for my hometown
Friends always got my back
Know I'm on the right path when they spittin' the facts
Workin' all day making sure this shit gon' last, yeah
I'm really givin' my all
Hard to reach new heights when you fearin' to fall
So to everybody tellin' me no my whole life
When I make it don't even bother to call

They don't wanna see me rise, no oh
They just wanna see me fall
When I've been givin' my all
I'm just gonna do it my way
My own way, my own way
I'm just gonna do it my way
My own way, my own way
Forget what they say

Never needed no acceptance
All the people talkin' sound like broken records
I could tell they used to have a dream and they were too afraid to see if they could go and get it
That don't sound like good advice

I want it forever not just overnight
Competition nothing, they just over hyped
Put the money down, then I roll the dice
I had three grand to my damn name
No job, no place to live
Sat down, made my first album, that shit popped
Felt like I made it big
Fans got me, now I'm full time
Give 'em nothin' but the best of me
OG in my hometown, now up and comers want the recipe
So we cookin' up
Back when I was just a rookie, ain't nobody hook it up
Now I touch down, dance Odell, that jealousy fit 'em so well
Hella nights, hella hotels
Got hella stories, never floatels
And I ain't even have to sell my soul cause my soul sells
Pack

They don't wanna see me rise, no, oh
They just wanna see me fall
When I've been givin' my all
I'm just gonna do it my way
My own way, my own way
I'm just gonna do it my way
My own way, my own way
(Forget what they say)

They don't wanna see me rise, no oh
They just wanna see me fall
When I've been givin' my all
I'm just gonna do it my way
My own way, my own way
I'm just gonna do it my way
My own way, my own way
Forget what they say
