

Sad Sad

Ollie

I feel sad sad, all alone inside my room
This love I'm bad at, but my rain gon' help you bloom
Souls tend to fall back to the place that feels like home
I'm on my way, I'm on my way

I feel sad sad, all alone inside my room
This love I'm bad at, but my rain gon' help you bloom
Souls tend to fall back to the place that feels like home
I'm on my way, I'm on my way

Yeah, you see, it's been a while that I've been stuck alone
I finally found my way this year an' now I'm coming home
Still I'm thankful for the time away I've only grown
I hope you see the changes in me still got more to show
It's tough to heal when you pretending that you're never hurt
That's why I choose to take the time to focus on me first
I believe that two souls don't just meet by chance
So I'm goin' always stick around an' try an' make this work
Even if we drift apart every once in a while
When your make up starts to run an' you faking a smile
Just know I think about you daily I'm begging you dial
To say I don't stare at my phone is only denial
So, my love my scarlet red
Come lay inside my bed
I want you to be happier, even if

I feel sad sad, all alone inside my room
This love I'm bad at, but my rain gon' help you bloom
Souls tend to fall back to the place that feels like home
I'm on my way, I'm on my way

I feel sad sad, all alone inside my room
This love I'm bad at, but my rain gon' help you bloom
Souls tend to fall back to the place that feels like home
I'm on my way, I'm on my way

Even if I couldn't call you mine I know you're the one
I've been living tryna follow signs but I'm not getting none
Wake me up when it's September love I'm gon' need more time
I don't wanna not remember us like

I feel sad sad, all alone inside my room
This love I'm bad at, but my rain gon' help you bloom
Souls tend to fall back to the place that feels like home
I'm on my way, I'm on my way

I feel sad sad, all alone inside my room
This love I'm bad at, but my rain gon' help you bloom
Souls tend to fall back to the place that feels like home
I'm on my way, I'm on my way
