

Side McDouble

Ollie

Can't live your life in a bubble
Big mac, with a Sprite side McDouble

Can't live your life in a bubble
Big mac, with a Sprite side McDouble
Just something light you know it's subtle
Still the same kid came out the rubble
I'm feeling like, something doubled
26 face all full of stubble
Just wanna take flight, out from this puddle
When I was kid was always trouble

I feel like I spent too long tryna get some traction
But this, this satisfaction
I won't make another song if it feel like acting
I'm quarterbacking
Rather spend my paycheque on some bitcoin drive a Prius
Done a lot of shit this year I'm proud these days to be us
Had a revelation watching sunsets in July
Now it's early morning running miles in my Adidas
I swear I got some holes in my pockets
"Mix in a little RuneScape, Call of Duty"

Now I wonder what I found tryna smile from within
Holding on the ground tryna fly with wind
Now I wonder what I found tryna smile from within
Tryna smile from within

Can't live your life in a bubble
Big mac, with a Sprite side McDouble
Just something light you know it's subtle
Still the same kid came out the rubble
I'm feeling like, something doubled
26 face all full of stubble
Just wanna take flight, out from this puddle
When I was kid was always trouble

When I was kid was always trouble
