

# Something Bout Dreams

Ollie

Somethin' 'bout a dream, yeah  
I know, know, know  
I know  
And I know, know, know  
I know  
Somethin' 'bout a dream, yeah

Remember this place, my stompin' grounds  
Six Flags took me up and down  
These country roads that we cruise around  
And these big cities that we dream about  
Football, Friday nights  
Feelin' like we made it, playin' underneath the lights  
Showin' off the girls that we all lights  
No worries, just livin' up for the night  
'Cause back then, that was it  
Didn't worry about where we got in  
No school shit bullshit  
This life we forced to begin  
But to stay young, act dumb; live it up to the end  
Throw house parties with mad stories, turnin' up with my friends  
No matter where I go, my mind's here  
[?] with that long pier  
Late nights with that cold beer  
Stargazin' that thought's there, I know

I know that we'll have to leave  
Still I'm holdin' onto a lifetime of memories

With the farms who grit the spit  
Tell me one thing, that's "Never quit"  
Only got one life and that's it  
So fakin' who you are never benefits  
What, we had it all where I learned to crawl  
It's where hockey games always turned to brawls  
It's where Friday nights, we break the laws  
Then Sunday mornings, we pray to God  
Do you remember me? When we fell in love  
And these late nights is what I'm thinkin' of  
'Cause I messed it up, and push came to shove  
And I lost you, hard to let go of  
But we live and learn and love returns  
Don't be concerned with what you can't control or you'll lose it all  
Truth be told, this small town can break your fall

So you raise your drink just one last time  
After we start these engines, it's too late to rewind  
Before we hit the backroads and cruise the county line  
Let's just take one last sip for all the moments we shined  
To good family and friends, to dreams that never end  
To our hopes that we defend, to happiness that mends  
This place embraced it all, and everything in between  
And now that I'm 'bout to go, I finally see

I know, know, know  
I know  
And I know, know, know

I know  
Somethin' 'bout a dream, yeah  
And I know, know, know  
I know  
And I know, know, know  
I know  
Somethin' 'bout a dream, yeah
