

Unstoppable

Ollie

We used to dream about this
Damn and now we living it
Started in the basement
Today I'm feeling the difference
We taking off this LA flight
An now I'm seein' that this shit
Was worth those sleepless nights
But I haven't made it
I still got a long way to go
That's why I'm working hard
That's why I'm making moves
I ain't sitting at home hoping that'll blow
No, I'm chasing goals
An if you don't you'll never know
I don't wanna be that guy that talks
About what I coulda done when I'm old
So, let's do it now
Its funny seeing people comin' back around
Cause when we started this
There were no where to be found
They ain't 'bout the dream
They ain't 'bout the sound
So circle staying small
Cause that's just how it gotta be
Still I'm thanking all my fans
Ya'll the real MVP's

Started out in the basement
Look how we changed it
Never thought that we would get this far
I don't care what they gonna say
I'll go do it anyway
All this music coming from my heart
I'm unstoppable, ble, ble, ble
Won't let nothing get in my way
I'm unstoppable, ble, ble, ble
An I don't care what they have to say
I'm unstoppable

Lifes 'bout taking chances
So I guess this is mine
I've been putting every single dollar
That I make into music everything is on the line
Yeah kinda like the pressure
Cause that's when the real stars rise
Hope y'all looking out cause
I won't ever stop until the whole game mine
See we gon' bring the real
Bring those verses that'll heal
Not this lame ass rap only talking
'Bout the dollar, dollar bills
All that shit is fake
With half the rap out now I can not relate
Everybody wanna sound like ye
Fuckin looking like you hit the copy paste
Nah that is not me
I've been working like I've never been

Man I'm looking like I'm Katniss Everdeen
This is a revolution we ain't settling, no
We ain't settling
Wanna give the whole team better things
Man I'm sick of always bein' 2nd string
Wanna give my mom and dad everything
Even though they doubted
Still I really wanna make 'em proud
Bring 'em up on stage
Like look at this yeah
There's thousands in the crowd
Saying I was lost

Started out in the basement
Look how we changed it
Never thought that we would get this far
I don't care what they gonna say
I'll go do it anyway
All this music coming from my heart
I'm unstoppable, ble, ble, ble
Won't let nothing get in my way
I'm unstoppable, ble, ble, ble
An I don't care what they have to say
I'm unstoppable
