

# Better Than Me

Olly Murs

Nothing else ever feels like the first date  
Everyone changes, it's okay  
You and I we both shared the blame  
I was trying far too hard  
To give you  
You just want someone with you  
But now you got that, It's not the same

Cause he can't love you better than I  
If I said it than it's a lie  
If you don't believe it  
Tell me goodbye

I don't ever want anyone else to love you  
We were meant to be together  
I won't let you call me never  
I won't ever let anyone come and take you  
Gonna fight for you forever  
Until we're back together  
I love you better than he  
He can't love you better than me  
Better than me  
Better than me

You could put a different face in the same frame  
Even call him by my nickname  
But both of us know he isn't me  
I could have her wear your perfume  
We can make love in the same room  
How would she feel when I call out your name?

Cause he can't love you better than I  
If I said it than it's a lie  
If you don't believe it  
Tell me goodbye

I don't ever want anyone else to love you  
We were meant to be together  
I won't let you call me never  
I won't ever let anyone come and take you  
Gonna fight for you forever  
Until we're back together  
I love you better than he  
He can't love you better than me  
Better than me  
Better than me

Oh, I don't ever want anyone else to love you  
We were meant to be together  
I won't let you call me never  
I won't ever let anyone come and take you  
Gonna fight for you forever  
Until we're back together  
I love you better than he  
He can't love you better than me  
Better than me  
Better than me

Better than me
