

Go Ghost

Olly Murs

I used to chase the light
I used to be so wild wild wild wild wild
I used to roam the night
But now I gotta slide slide slide slide slide

I'm hanging from the sky
So you can watch me fly
Oh my gosh I'm crazy for you

'Cause baby I just wanna go ghost when I'm with you
Ghost when I'm with you
Close when I'm with you
Baby I just wanna get slow when I'm with you
Slow when I'm with you
And maybe that's the issue
Losing my mind everyday
One look from you gets me blue in the face
Oh, baby I just wanna go ghost when I'm with you
Ghost when I'm with you
Go ghost now

Go ghost now
Yeah

I used to call your name
I used to love that look upon your face
And now we're riding waves
It'll never be the same same same same same

I'm hanging from the sky
So you can watch me fly
Oh my gosh I'm crazy for you

'Cause baby I just wanna go ghost when I'm with you
Ghost when I'm with you
Close when I'm with you
Baby I just wanna get slow when I'm with you
Slow when I'm with you
And maybe that's the issue
Losing my mind everyday
One look from you gets me blue in the face
Oh, baby I just wanna go ghost when I'm with you
Ghost when I'm with you
Go ghost now

Go ghost now

You can watch me fly
Hanging from the sky
Oh you can watch me fly

Baby I just wanna go ghost when I'm with you
Ghost when I'm with you
Close when I'm with you
Baby I just wanna get slow when I'm with you
Slow when I'm with you
And maybe that's the issue

Losing my mind everyday
One look from you gets me blue in the face
Oh, baby I just wanna go ghost when I'm with you
Ghost when I'm with you
Go ghost now
