

Take Your Love

Olly Murs

You go round and round and round and round
You go round
But he lets you down and down and down and down
He let's you down
Everybody knows your business in this town
'Cos you can't help it
No, you can't help it

And he'll tell ya, tell ya, tell ya
Tell ya what you want
But you've been fakin', fakin'
Fakin' it more than once
And you keep callin', callin' me
Every time he's gone
Like you can't help it
You can't help it

(Whoa)

He don't see what I see
And he don't know what you need
He's gon' know when I take your love away
He only loves you part-time
Sure that you cry on his mind
Waiting for me to take your love away
And every piece that he breaks
Is another piece that I take
Until he's made that last mistake
He don't think that you'll leave
And he don't know about me
Well he's gon' know when I take your love away
I'll take your love away

Round and round and round and round
You go round
But he lets you down and down and down and down
He let's you down
And you keep callin', callin' me
Every time he's gone
Like you can't help it
You can't help it

(Whoa)

He don't see what I see
And he don't know what you need
He's gon' know when I take your love away
He only loves you part-time
Sure that you cry on his mind
Waiting for me to take your love away
And every piece that he breaks
Is another piece that I take
Until he's made that last mistake
He don't think that you'll leave
No, he don't know about me
Well he's gon' know when I take your love away
I'll take your love away
When I take your love away

All I know is when we're on our own
Then you drink and it's over
Back to him when you're sober
So you stay thinkin' he might change
But I know that he won't
'Cos I know that he don't

He don't see what I see
And he don't know what you need
He's gon' know when I take your love away
He don't think that you'll leave
No, he don't know about me
Well he's gon' know when I take your love away
I take your love away
(He don't think that you'll leave)
(He don't know about me)
(Well he's gon' know when I take your love away)
