

Younger

Olly Murs

Tired of working through the weekend
I'm a dead man, bring me back to life
Bring me back to life, yeah
Lately you, been barely you
Man all you do is working to survive
Working to survive, yeah

Let the lightning strike
Let the fire rage
Let it end tonight
As long as I got you I'm gonna be okay

'Cause we ain't getting no, getting no younger
Lights out, we're on our way
But 'til the party's over
I know we'll be okay
'Cause we ain't getting no, getting no younger
Lights out, we're on our way out up
But 'til the party's over
I know we'll be okay

I'm tired of waiting, being patient
We'll be living all our dreams tonight
All our dreams tonight, yeah
It's time to dive in
We'll be swimming in the deep end
Let's just close our eyes
'Cause we're gonna be alright, ah ah

Let the lightning strike
Let the fire rage
Let it end tonight
As long as I got you I'm gonna be okay

'Cause we ain't getting no, getting no younger
Lights out, we're on our way
But 'til the party's over
I know we'll be okay
'Cause we ain't getting no, getting no younger
Lights out, we're on our way up
But 'til the party's over
I know we'll be okay

'Cause we ain't getting no, getting no younger
Lights out, we're on our way
Until the party's over, over

'Cause we ain't getting no, getting no younger
Lights out, we're on our way
But 'til the party's over
I know we'll be okay
'Cause we ain't getting no, getting no younger
Lights out, we're on our way up
But 'til the party's over
I know we'll be okay

'Cause we ain't getting, getting

We ain't getting, getting
We ain't getting, getting
'Cause we ain't getting, getting
We ain't getting, getting
We ain't getting, getting
