

i'm a mess

Omah Lay

It is what it is

Oyaaayi
Oya uuhh
Oyaaayi
Oyayayi

Sometimes I'm happy Sometimes I'm sad
I don't know what's over me
Sometimes I'm good sometimes I'm wild
I don't know what's over me

I don't know what's over me
I'm over thinking everything
At times it feels like nobody
Can understand the way I feel
Cause I'm fucked up totally

I don't know how to keep company
So I've been drinking cognac

I've been drinking too many shots of cognac

One for the belly another for the broken heart
Three for addiction four so I don't go back
Looking for somebody wey fit watch my shoulders
So, I can never be sober

I can never be sooo soo uhh uhh
(I can never be sooo)
Ohh ohh
Yes I did it
How many million I make for a living

Wear my Louis Vuitton
Post for a pic
Let the camera light hit my teeth
You know

Nobody is better than me
Nobody is better than me
I do it differently
Everybody can see

But I don't know what's over me
I'm over thinking everything
At times it feels like nobody
Can understand the way I feel
Cause I am fucked up totally

I don't know how to keep company
So I've been drinking cognac
I've been drinking too many shots of cognac

One for the belly another for the broken heart
Three for addiction four so I don't go back
Looking for somebody wey fit watch my shoulders

So, I can never be sober

(I can never be sober)
