

Done With You

Omar Apollo

Done with you, done with you, done with you, done with you

Used to talk 'bout you and I
Really in your life
Used to miss you when you're gone
Gone, gone
Unread message on your phone
Yeah, sometimes love don't make it right

So hard, sometimes love don't make it right
So hard

I'm so done with you, done with you, done with you, done with y
ou, done
I'm done with you, done with you, done with you, done with you,
done
I'm so done with you, done with you, done with you, done with y
ou, done
I'm done with you, done with you, done with you, done with you,
done

Used to talk 'bout you and I
Used to talk 'bout you and I
Used to see you every night
Won't you please just let me go?
I'd be better off alone
I'm still wearing all your clothes
Let me go, let me go

Sometimes love don't make it right
Bro, you got better bitches

I'm so done with you, done with you, done with you, done with y
ou, done
I'm done with you, done with you, done with you, done with you,
done
I'm so done with you, done with you, done with you, done with y
ou, done
I'm done with you, done with you, done with you, done with you,
done

Done with you, done with you, done with you, done with you, don
e
I'm done with you, done with you, done with you, done with you,
done
