

# Imagine U

Omar Apollo

Sometimes you touch me on my face  
I wish you could've never left me  
You're picking up my phone, on 2%  
But you're not too far from me

And sometimes when you're walking by  
I'll tell you I want you, I'll call you, I'll call you  
And sometimes when you're walking by  
I'll tell you I want you, I'll call you

Imagine you  
Imagine you  
Say that you love me  
Say that you love me  
Imagine you  
Imagine you  
Say that you love me  
Say that you love me

I miss you feeling on my waist  
You never told me I was rushing  
But my mind's changing every day  
I'm glad that you could even trust me

And sometimes when you're walking by  
I'll tell you I want you, I'll call you, I'll call you  
And sometimes when you're walking by  
I'll tell you I want you, I'll call you

Imagine you  
Imagine you  
Say that you love me  
Say that you love me  
Imagine you  
Imagine you  
Say that you love me  
Say that you love me

I need to tell you something  
I think I'll call you again  
I hate when you hang with him  
I think we're better as friends  
I need to tell you something  
I think I'll call you again  
I hate when you hang with him  
I think we're better as friends

Imagine you  
Imagine you  
Say that you love me  
Say that you love me  
Imagine you  
Imagine you  
Say that you love me  
Say that you love me
