

Pilot

Omar Apollo

She leaves, she got it better than me
Ooh, so much better than me
Can I lie when you're better than me? (Better, better than me)
No

Let me know what you think, I'm outside, you know I been waitin' by the door
man (West, West Side)
You know I would've stayed in LA, makin' more bread if I knew you wasn't really
tryna romance
Diamonds blindin' my eyes, wear all white on my chest like it's snowman
Ride the bike with no hands, like a pole dance

So dark that I wish you sun
So sad that I wish you love
I gave you a rose
Down by the coast

Sufferin' for you is growin' on me
And you know I still got you
By any means
Yeah, I got you
I got you still
Yeah, I got you still (Still, still)
I got you, still (I got you, still)

The club got me up
I miss you, I miss you

Jesus in my eyes, gonna fly it like a pilot
And my eyes move side to side like a light in my eyelids, and I
Checked by the hotel room, water drops in my forehead
Raindrops got my clothes wet
Got a drink and I poured that
Vacay ruined, where are my hoes?
I been lookin' (Child), I don't know
Drivin' home drunk, on a buzz on my birthday
Eyes on God and my boss like a curly
Drivin' home drunk, on a buzz on my birthday
Eyes on God and my boss like a curly

Sufferin' for you is growin' on me (Take, take, take)
And you know I still got you
By any means
Yeah, I got you
I got you, still (Still, still, still)
Sufferin' for you is growin' to me
And you know I still got you
By any means
Yeah, I got you
I got you, still
Yeah, I got you still
I got you, still

These ain't what they seen
These ain't what they seem
I know it's not fair
Oh, to last forever

Wanna hurt you forever
Tryna last forever (Woah)
It doesn't hurt forever
Forever
