Spite

Omar Apollo

I don't wanna hit you back on purpose
Never said that I acted perfect
I'm too far, I'm across the boat now
Ain't been the same since I left my hometown
I've been thinking about moving by you
It's been nice having somewhere to fly to
I like your clothes and the way they're draping
It's been nice 'cause I know that

You like it
You like it
Like I do, like I do, like me
'Cause I know that
You like it
You like it
Like I do, like I do, like me

Why you gotta ruin every night?
50K I spend it out of spite
Every time I see you on my phone
Hate that I still need you with my life
Tulips dying slowly in the vase
Passport's gettin' dirty need a case
You're the only place I wanna go
I still wanna take you on a date

30 days you been on vacation
By the end I was losing patience
Why you going out your way to hide me?
Every night that you spent beside me
It don't matter, in my head it's working
Ain't been picturing another person
It's been hard 'cause we're making money
It's still nice that I know that

You like it
You like it
Like I do, like I do, like me
You like it
You like it
Like I do, like I do, like me

Why you gotta ruin every night?
50K I spend it out of spite
Every time I see you on my phone
Hate that I still need you with my life
Tulips dying slowly in the vase
Passport's gettin' dirty need a case
You're the only place I wanna go
I still wanna take you on a date
