

## Stayback

Omar Apollo

I got a lot on my mind, especially you  
I can't help that you been on my mind  
And I'm thinking about you, all the time  
Yeah, I can't help that you been on my mind  
You know I see you around  
See you around 'cause I don't care anymore  
I don't care anymore, yeah  
See you around 'cause I don't care anymore  
But I'd just like to say, that uh  
It's not that bad  
You took all that I had to forget about you, baby  
It's not that bad  
You took all that I had to forget about you baby

Oh, but you know I still feel you  
You know I been feeling you since way back  
But I couldn't even make the words to say that, say that  
If I could switch bodies you know I'd change that, change that  
But you could never love me (But you could never love me)  
So stay back, stay back

Well, uh, I just wanna lay with my baby, yeah  
But this is how we do it  
There really ain't nothing to it  
But this is how we do it

You know I been feeling you since way back  
Stay back, stay back  
But I couldn't even make the words to say that, say that  
I'ma get that, I'ma get that, girl  
If I could switch bodies you know I'd change that, change that  
But you could never love me  
But you could never love me so stay back, stay back

Yeah, little miss muffin  
Girl, I like your stuffing  
I can't help that you been on my mind  
Yeah, I admitted to mucha  
Mucha, gucha, gucha  
I can't help that you been on my mind  
I've been horny for days  
Girl, you shouldn't play with me  
I can't help that you been on my mind  
And whatever you say, I still miss you every day  
I can't help that you been on my mind  
Yeah, mind, mind, mind
