

## Stayback

Omar Apollo

I can't help that you been on my mind  
I can't help that you been on my mind  
See you around cause I don't care anymore  
See you around cause I don't care anymore  
It's not that bad took all that I had to forget about you baby  
It's not that bad took all that I had to forget about you baby

You know I been feeling you since way back  
But I couldn't even make the words to say that, say that  
If I could switch bodies you know I'd change that, change that  
But you could never love me so stayback, stayback

You know I been feeling you since way back  
But I couldn't even make the words to say that, say that  
If I could switch bodies you know I'd change that, change that  
But you could never love me so stayback, stayback

I can't help that you been on my mind  
I can't help that you been on my mind
