

## Want U Around

Omar Apollo

Baby, I want you around  
Baby, I want you around

I'm done with you  
And baby, I promise I'll be what you wanted  
But now and here  
Heart took some damage I wish I could vanish from you  
You  
You  
You

And baby, I want you around (Baby, baby)  
(I want you around) Baby, I want you around

I'm missing you  
Took me for granted and that what you wanted  
And I'll disappear  
Told me you promise, I can't even stand it  
You  
I miss you, baby  
You  
You  
(Miss you, miss you, miss you)

And baby, I want you around (Baby, baby)  
(I want you around)  
(I want you around) Baby, I want you around

Baby, I need you to notice me  
See your name on my phone 'fore I go to sleep  
Why you trying to push me away  
What else are you tryna gain?

Say what you want about me  
Say what you want about me

Baby, I want you around  
Baby, I want you around
