

While U Can

Omar Apollo

Stop acting like I would leave
There's just no way
For this life, we made
For your life, I prayed
Keep your arms around me
Baby, please exhaust me
I don't wanna get you off me
Hold me while you can
Hold me while you can

And I won't be right be right here
And I won't be by your side
Won't be by your side
Like I said, I would

Stole the light inside of me
Let your eyes guide me to the way
Who am I to you when our worlds collide?
I'm on standby, all I wanted was you to be
Free, free, free
And I won't be right be right here
And I won't be by your side
Won't be by your side
Won't be by your side
Like I said, I would
