

Through Wires

Omar Rodriguez-Lopez

Spent time for real change
But lost [?]
Resting on the fault line
I fought black through wires
Fighting against time
Because fear eats the soul

Spent a lifetime
Just waiting here for you
It takes a lifeline
To trust I'll make it through this
Can't leave it up to fate?

To know you

Is bleeding
While the world passes by
And resting on the fault line
So I fought black through wires
Fighting against time
Because fear eats the soul

Spent a lifetime
Just waiting here for you
It takes a lifeline
To trust I'll make it through this
Can't leave it up to fate
