

2 Sides

Omarion

Yo, yeah
Oh-oh-oh, oh-oh-oh, oh-oh-oh
Yeah, uh

I know you want to slow it down, but you like it real fast
Two sides of the story, two sides, two sides of the story
Say you are a good girl, but you got it real bad
Two sides of the story, two sides, two sides of the story
Going way up 'cause you hold me down, you my rock
You my anchor, every time we link up
There's one thing I've learned, good girls go bad
Two sides of the story, two sides, two sides of the story

Up and down, 'round and 'round, how I work you
Girl, I love it when it's coming full circle
I'm a caterer, no dictator, I'm a serve you right
Never jaded, elevated, I'ma give you life

'Cause it's two sides of the story, two sides of the story
You can be chaotic, but the sex is so euphoric
Keep throwing it back, but you say we moving forward
Trying to ignore it, switching categories

I know you want to slow it down, but you like it real fast
Two sides of the story, two sides, two sides of the story
Say you are a good girl, but you got it real bad
Two sides of the story, two sides, two sides of the story
Going way up 'cause you hold me down, you my rock
You my anchor, every time we link up
There's one thing I've learned, good girls go bad
Two sides of the story, two sides, two sides of the story

Should I judge you by just your intentions?
'Cause how you actin', love, you need attention
Who are you? Why so rude? You be trippin'
Ah, ooh, it's cute, change your mood when we kissin'

'Cause it's two sides of the story, two sides of the story
You can be chaotic, but the sex is so euphoric
Keep throwing it back, but you say we moving forward
Trying to ignore it, switching categories

I know you want to slow it down, but you like it real fast
Two sides of the story, two sides, two sides of the story
Say you are a good girl, but you got it real bad
Two sides of the story, two sides, two sides of the story
Going way up 'cause you hold me down, you my rock
You my anchor, every time we link up
There's one thing I've learned, good girls go bad
Two sides of the story, two sides, two sides of the story

Way up, down, you my rock
My anchor, any time we link up
Any time you go with me, holding me
Ooh, oh-oh-oh-oh
Yeah
Oh, make sure, make sure

Just make sure you see both sides
Oh-oh, oh-oh, oh-oh

Two sides, two sides, two sides
Two sides, two sides, two sides
Oh
Every time we link up
