

Bass

Omarion

See you over there and you know you got it
Bass
See you over there and you know you got it
Bass
See you over there and you know you got it
Bass
See you over there and you know you got it
Oh my
Yeah

Tell me, what's your sign?
'Cause you and I feel too aligned
You're such a satisfaction
You move with passion
I gotta have it now

I love the way you drop it low
But still you elevate my soul
You got that perfect asset
That black girl magic
Come to me, love

Turn around like that
Throw it back real fast
Up down, up down
Cheeks up, face down
Ride it like an old school
Pop it like you want to
Can I get taste?
Tell your momma I said thanks
'Cause she gave you that

See you over there and you know you got it
Bass
See you over there and you know you got it
Bass
See you over there and you know you got it
Bass
See you over there and you know you got it

Girl I love the energy I'm getting from you
'Round and 'round, up and down
You moving it's smooth
Yeah, your body's very stimulating
And your body looking so amazing
It's a very sticky situation

Turn around like that
Throw it back real fast
Up down, up down
Cheeks up, face down
Ride it like an old school
Pop it like you want to
Can I get taste?
Tell your momma I said thanks
'Cause she gave you that

See you over there and you know you got it
Bass
See you over there and you know you got it
Bass
See you over there and you know you got it
Bass
See you over there and you know you got it

See you over there and you know you got it
Bass
See you over there and you know you got it
Bass
See you over there and you know you got it
Bass
See you over there and you know you got it
Bass
