

# Beg

Omariion

She walked in my room at night  
Wearing just what I like, I like yeah  
Been waiting for so long  
Oh Imma be going in all night (all night)  
First we started kissing  
Then my clothes they started missing  
Till' you're touching and rubbing  
Scratching and jugging on my body  
Then she started tripping, told me shut up and listen  
Man you wont believe what she said

She want me to beg  
She all up in my ear  
Now that I'm feening for it  
She up and said  
She want me to beg  
She wont even let me touch her  
She gon' show a nigga no love (no love)  
She want me to beg (oh my)  
Beg (knees)  
Beg (crying)  
Beg (please)  
Beg  
Just to get her in my bed  
She want she want me to  
Beg  
She want she want me to

Cut the lights off  
Leave up all that side talk  
Cuz' you know what I wanna hear (wanna hear)  
You saying how bad you want it (want it)  
Sounds good in my ear  
You know I get silly in the sheets  
Up & down like a trampoline  
Them other girls ain't got shh to me  
So before I put these legs around your waist  
We gon' take a little brake cuz'  
There's something that you gotta do

She want me to beg  
She all up in my ear  
Now that I'm feening for it  
She up and said  
She want me to beg  
She wont even let me touch her  
She gon' show a nigga no love (no love)  
She want me to beg (oh my)  
Beg (knees)  
Beg (crying)  
Beg (please)  
Beg  
Just to get her in my bed  
She want she want me to  
Beg  
She want she want me to
