

Between The Covers

Omarion

Sip until we faded
And just like it's your birthday I'm elated
Eager we celebrate it
I hear your body calling me
Feel free to release your freak
It's no need to keep waiting
I'm gripping on your curves like I'm racing
Keep feeding you motivation
You go girl you are all I need
Explore all your fantasies

Just take a ride, Just take a ride, Just take a ride with me
Girl let me dive, girl let me dive, I wanna swim in your sea
Tell me how you feel and keep it real and I'll never leave you lonely
Sex you like on repeat, close your eyes and you'll see

Just let me have my way girl don't be scared
Cause I just wanna love ya (just wanna love ya)
In between the covers (between the covers)
There will be no panties in my bed
Cause I just wanna love ya (just wanna love ya)
In between the covers (between the covers)

Got my hormones racing
And in between your legs is my location
You say it's been so vacant
I bring that flow you've never knew
Got your legs up to the moon
Sweet love is all you tasting
You throw it back girl I like it like that
Might need some ventilation
It's getting hot but girl it's cool
Give you what you'll need times two

Just take a ride, Just take a ride, Just take a ride with me
Girl let me dive, girl let me dive, I wanna swim in your sea
Tell me how you feel and keep it real and I'll never leave you lonely
Sex you like on repeat, close your eyes and you'll see

Just let me have my way girl don't be scared
Cause I just wanna love ya (just wanna love ya)
In between the covers (between the covers)
There will be no panties in my bed
Cause I just wanna love ya (just wanna love ya)
In between the covers (between the covers)

In between the covers
I will love you like no other baby
Promise to do you right
We can make it last all night
Hope you ready girl
I wanna take you on that flight

Just let me have my way girl don't be scared
Cause I just wanna love ya (just wanna love ya)
In between the covers (between the covers)
There will be no panties in my bed

Cause I just wanna love ya (just wanna love ya)
In between the covers (between the covers)

Just wanna love ya (3x)
Between the covers

I just wanna love you (3x)
Between the covers (2x)

I just wanna love you (3x)
Between the covers (2x)
