Omarion

I can imagine  
Allah, O magic, oh  
Sss, oh  
Allah, O magic, oh  
Black magic

I thought she was just another attraction  
Somebody else to come to lay with me  
Lay with me  
But she turned out to be a love assassin  
And turned me to another causality

That's when she hit me with black magic  
Oh no  
The type of love I can't imagine before  
Incredible  
Now I've been searching, trying to find that type of love I had that night  
That black magic got me out of control  
Now I can't let it go, go, go, go, go  
Black magic, where'd you go, go, go, go, go, go?  
Oh, I've been searching, trying to find that type of love I had that night  
That black magic got me chasing a ghost, ghost

Allah, O magic  
Oh yeah, yeah, yeah  
Black magic  
Uh  
Allah, O magic  
Oh yeah

She brought me in with lots of tender kisses  
Her skin was so incredibly soft  
Soft  
The way she moved her hips was so, so vicious  
She had me fallin' with her in the dark

That's when she hit me with black magic  
Oh no  
The type of love I can't imagine before  
Incredible  
Now I've been searching, trying to find that type of love I had that night  
That black magic got me out of control  
Control  
Now I can't let it go, go, go, go, go  
Black magic, where'd you go, go, go, go, go, go?  
Oh, I've been searching trying to find that type of love I had that night  
That black magic got me chasing a ghost, ghost

Allah, O magic  
Oh yeah, yeah, yeah  
Black magic  
Uh  
Allah, O magic  
Oh yeah  
Yeah

Once you get, can't forget that black magic on me

Playing in my dreads, I'm Offset and she's my Cardi B
