Omariion

Far from innocent
But girl, I love the sentiment
Skin like cinnamon, and ooh, I love the scent of it
My intuition say I need to put an end to this
But now I'm fighting 'cause I really love your benefit

All I know is that I hate them late nights driving home
Knowing that I'm really losing all control
Thinking 'bout your body, hard to let it go (Go)

'Cause it's real love with my main one, no question
But you come get me something that's missing
It's all fun when we caught up, then karma comes along
(Karma comes along)

It's really way too much of my own bullshit
Way too much of my own bullshit
If I reply, I know I'ma slide on you
'Cause I can't lie, it's always a vibe with you
It's true
Even though I know I'm wrong
Gotta leave this girl alone
Even though I know I'm caught in

Way too much of my own bullshit
Way too much of my own bullshit

If it was up to me, I'd do it again
It won't help us in the end
Fighting a war, who will win?
God damn

In the back of my mind
I text your phone, you at my door
When it's good, it feels right
Shit like this takes time
Wanna kiss on ya
Wanna touch on ya
Just like old times
It's not a bullshit
Yeah, fuck that pride

'Cause it's real love with my main one, no question
It's real love with my main one, no question
It's all fun when we caught up, then karma comes along
Oh, karma comes along

It's really way too much of my own bullshit
Way too much of my own bullshit
If I reply, I know I'ma slide on you
'Cause I can't lie, it's always a vibe with you
It's true
Even though I know I'm wrong
Gotta leave this girl alone
Even though I know I'm caught in

Way too much of my own bullshit

Way too much of my own bullshit

Shit

Way too much of my own bullshit

Yeah

Yeah
