Oh you makin' me want it (woah woah)

Everytime you sit that on my face  
Don't believe me you should try me, try me

Catch up on a episode  
Two cribs right up the coast  
Soft lips, I'm turning you on (ayy)  
You're ready, you're ready? (What's up baby?)

Imma make it known, make it known yeah  
Imma make it known, make it known yeah  
Help in the morning, put it on me  
Never leave you lonely, leave you lonely  
Imma make it known, make it known yeah

Help in the morning, put it on me  
Never leave you lonely, leave you lonely  
Imma make it known, make it known yeah

Help in the morning, put it on me  
Never leave you lonely, leave you lonely
