

Fool with you

Omarion

At the movies one night
Sportin Apple Bottom jeans and them
Gucci boots
Saw you walkin my way
Wit some M&M's and a
Mountain Dew

The way you switch your booty when you
Walk by
You handcuffed to a nigga but its
alright

Girl before you go
Slide your number on the low

I wanna fool with you
Are you down with that with no strings attached
I wanna fool with you
Keep on the low he ain't gotta know
I wanna fool with you
Gots to put it down when your man ain't around
I wanna fool with you

I see you sittin real close
Got your man on the side but we
Doin the most
My hand on your thigh
So I can feel underneath
your clothes

Ain't nobody knowin and its
So hot
You got a nigga goin baby
Don't stop

You can be more than just a lover
For now we undercover

I wanna fool with you
Are you down with that with no strings attached
I wanna fool with you
Keep on the low he ain't gotta know
I wanna fool with you
Gots to put it down when your man ain't around
I wanna fool with you

We can sneak out the exit door
Into a movie so he won't know
When we sip on the Crys
I'll give you some of this
Be back before the credits roll

You know (you know)
I know (I know)
That you want me to grab that waist (yeah)
I know (I know)
You know (you know)

That I got to get a taste
(I really really gotta fool with you)

I wanna fool with you
Are you down with that with no strings attached
I wanna fool with you
Keep on the low he ain't gotta know
I wanna fool with you
Gots to put it down when your man ain't around
I wanna fool with you

Baby tonight I'll freak your body right
(I'm gonna freak your body right)
Lovin them lips, them hips, them sexy thighs
(Those sexy thighs)
Come to my place so we ain't gotta hide
(We gotta hide so I can)
Fool with you
(Fool with your body girl)
