

## Game Over

Omarion

I'm running late but I will stay for it  
She wanna blaze, I got the flame for her  
Said she need a baller, I got the plane  
She hit the "J" and now it's game over  
Baby girl I got everything that you need  
I know you feeling good now you hit the weed  
Bomb bud, big ass and some Hennessy, it's game over  
I got to play, game, I got to play, it's game over

Pull up on the lane, out up of the Range Rover  
I be switching lanes, in my change over  
Niggas better pray, I done catch a case on 'em  
Put that on the grave, word to J Hova  
Fuck her on a plane, call that bitch a lay over  
Who am I to play? I know why you came  
All these niggas lame, baby what you say  
[?] you ain't gotta pay for it

I'm running late but I will stay for it  
She wanna blaze, I got the flame for her  
Said she need a baller, I got the plane  
She hit the "J" and now it's game over  
Baby girl I got everything that you need  
I know you feeling good now you hit the weed  
Bomb bud, big ass and some Hennessy, it's game over  
I got to play, game, I got to play, it's game over

Game oh nah oh, it's game over (Game)  
Game, it's game over  
Game, it's game over  
Game, it's game over  
(Even if this song is [?])  
Game, it's game over
