

Love Me Right

Omarion

If you want me to love you, then baby
Love me right
If you want me to love you, then baby
Love me right, ooh

24 hours in a day (Yeah, yeah)
Don't try to call me when you lay down
Them ain't the type of games I play
You better pull up on me right now
Wanna know your intentions
Wanna know if you're serious
You got all my attention
Let me see what you do with it

See, I'ma tell you no lies (No lie)
I'ma give you more time (Time)
But only if you all mine, so baby, show me
If you want it

If you want me to love you, then baby
Love me right
If you want me to love you, then baby
Love me right
It's gotta be magical, not typical for me this time
If you want me to love you, then baby
Love me right

Why you mad that I didn't pick up? (Pick up)
Sent you texts and you didn't respond
You know I'll never leave you lonely
No, I won't do that to you, love
Can you please stop tripping?
Baby, it's not that serious (Serious)
Asking all these questions
You know I cannot deal with it (No)

'Cause I could be the best man
I could be the best friend
Only if you trust me
So baby, show me (Show me)
If you want it

If you want me to love you, then baby
Love me right
If you want me to love you, then baby
Love me right
Right
It's gotta be magical, not typical for me this time
For my love
If you want me to love you, then baby
Love me right
Right
