Taking Off

Omarion

Oh
Yeah
Taking off

Lately, you've been actin' hella different
I can see you struggling with your feelings
Though you say that you're doing fine (ohh)
But baby, I can read between the lines

So let me take your mind to a better place
Kiss you down low, how you like babe?
Talking with our bodies we ain't gotta say nothing, nothing
I can feel the waves coming from your body baby
I'ma light these candles up
Buckle up baby I'ma take you there

Taking off
We're taking off
We're taking off
Taking it there tonight

Taking off
We're taking off
We're taking off
Taking it there so baby

Lay in the middle of the bed (yeah)
Legs in the middle of the air (yeah)
I can feel you tighten up (up)
I can feel you wanna erupt (woah)

We're taking off
We're taking off
We're taking off
Taking it there

Oh I'll admit that I've been hella distant
Haven't been giving you attention
It's been all work and no play
Can you just make a little time for me

So let me take your mind to a better place
Kiss you down low how you like babe
Talking with our bodies we ain't gotta say nothing, nothing
I can feel the waves coming from your body baby
I'ma light these candles up
Buckle up baby I'ma take you there

Taking off
We're taking off
We're taking off
Taking it there tonight

Taking off
We're taking off
We're taking off
Taking it there so baby

Lay in the middle of the bed (yeah)
Legs in the middle of the air (yeah)
I can feel you tighten up (yeah yeah)
I can feel you wanna erupt

We're taking off
We're taking off
We're taking off
Taking it there

Taking off
We're taking off
We're taking off

Lay in the middle of the bed (yeah)
I can feel you tighten up
We're taking off
We're taking off
