

Waiting

Omarion

Shelter you with these arms
I been waiting for you
There can be no right or no wrongs
Baby, you put my body to use
Use me

I've been patient all night long
With open arms, baby
Touch my body
I'm all yours
Back to back and round after round
Baby
Come to me right away
I need you here right now

I'm waiting for you, baby
Tell me what more can I prove?
Prove
I can't wait too long
But I'm patiently
Waiting on you
Baby, baby, baby

Time is precious
I'm so anxious
No, no, no
No pressure, baby
No pressure, just pressure
No pressure, just press
No

I'm waiting, baby
I'm waiting for you, baby
I'm waiting, baby
What more can I prove?
Prove, oh
I can't wait too long
But I'm patiently

Waiting on you
Waiting on you
Waiting on
Waiting on you
Waiting on you
Waiting on
Waiting on you

I'm waiting for you
So patient for you
Oh
