These pussy niggas shootin' just to shoot ain't got no skill
But I'm aimin' to make 'em feel
My pain, I'ma drop 'em like a tear
We been beefin' for years
But yeen score nun I'm overkill

He left you for dead
Swung open that gate I watched your bro run
That .45 wouldn't have jammed
You woulda never met your son
Pull around the corner
Cameras out fuck it we hooded up
33 on that glock
A couple stocks felt like we fully loaded
Get your address, I hit the gate thought I was pullin up
You can't stand that heat? get out the kitchen while we cookin sumn
Peezy!

You know what it is, lil' nigga
Close your mouth and open your ears, lil' nigga
All that war finna' get you killed, lil' nigga

Beat your block up, block up, block up

Block up, block up
Walk down your block
Like a knock in dirty clothes
Show him how it feel to get hit with a dirty pole
Everybody ain't a shooter
I learned this shit early on
If I ever said imma leave this shit alone, you heard me wrong
Ridin' with this burner
Finna burn ya to my song
Earn your stripes
You still gotta live up to 'em until you gone
Threw that burner in the river right after he got him gone
Then I gotta go buy my dog a new bone forreal
You know what it is lil' nigga
You gon die so fuck how you feel lil' nigga

With your mama
She gon get killed lil' nigga
So I hope you got your steel lil' nigga
