

Clap For Me

OMB Peezy

This one, this one of them big motherfuckers, you feel me? (Yeah)
Gotta take 'em to church
That's why I'm clappin' (Bankroll Got It)

Stuck in the streets, that's where I had to be (Where I had to be)
I made it out, I know they glad for me (Glad for me)
At least I thought, nobody clapped for me (Clapped for me)
Uh, at least I thought, nobody clapped for me, yeah (Clapped for me)
Shit, I just feel like, uh

I need a round of applause, I done stood tall through the darkness
I done climbed a mountain and you know for a fact I come from robbin'
How you hatin' on my mission and you done witnessed my whole struggle
?

I can see it in your eyes that I can't treat you like my brother
Lil' youngin too deep in the beef, feel like his friends, he can't trust 'em

To the point if he go missin', he sharin' locations with his mother
Out late night on a ride, the nigga behind him got a cutter
And we hop out when it go down, they just might shoot me in my van
I did a show, walked off stage, heard my partner just got murdered (Murdered)

Takin' pictures with the fans, they don't know a nigga hurtin'
Made a song called "Driveway," Cool died in a driveway like a month later

He told me get that money, then have fun for real

Felt like he was in the streets because he had to be ('Cause he had to be)

I made it out, I know they glad for me (Glad for me)
At least I thought, nobody clapped for me (Clapped for me)
Uh, at least I thought, nobody clapped for me, yeah (Clapped for me)

Look, uh, I done seen some shit that'll make your stomach hurt
At an age where I ain't even know how a stomach work
Seven years old, hang around old niggas who bloodthirsty
Crack servin', then I started robbin', I was that thirsty
That hungry, back on it, gotta have a backbone and
Hire me the bitch and go to jail and be back lonely
Don't need nobody, you can run it by yourself, uh-huh
Need an inhaler, sometimes, I be out of breath, uh-huh
Uh, don't wanna talk right now, I'm outta here
If you love me, show it louder, bae, so I can hear
So I can see, I mean
Stuck in the streets, that's where I had to be, I had to get up outta there, ooh-oh

Stuck in the streets, that's where I had to be (Where I had to be)
I made it out, I know they glad for me (Glad for me)
At least I thought, nobody clapped for me (Clapped for me)
Uh, at least I thought, nobody clapped for me, yeah (Clapped for me)
