

## Go Down

OMB Peezy

Look, look, you know what's up, it's finna go down  
Look, aye, you know what's up, it's finna go down  
It only take one try to kick a door down  
Look...

You know what's up, it's finna go down  
It only take one try to kick a door down  
Too hard to let go of that robbing shit, I love that  
You know that youngin keep that Glock with him, where yours at?

Look, you know what's up, it's finna go down  
We both got a pistol, you better bust, cause ain't no showdown  
Don't even try it, I got something to shut the show down  
After I shot, your whole block look like a ghost town  
Low down, she let me fuck, robbed her brother a month ago  
Took him for his shit then fucked his sister, that's a double score  
It's a lick and I say I ain't going? That's a fucking joke  
Catch you stealing food where I'm eating? Cut your fucking throat  
Done seen a lot of shit, so many licks, feel like I'm getting old  
Ex bitches sending me naked pictures, I don't miss you hoes  
Bust a brain, then go and beat some pussy til she pigeon toed  
Bust a brain, then go and beat some pussy til she pigeon toed  
Peezy

You know what's up, it's finna go down  
It only take one try to kick a door down  
Too hard to let go of that robbing shit, I love that  
You know that youngin keep that Glock with him, where yours at?

You know that youngin keep that Glock with him, where yours nigga?  
Always wanted to be a robber, not a drug dealer  
Catch a fuck nigga stumbling out the club nigga  
[?] I don't fuck with niggas, fuck them niggas  
None of that hiding, they know we coming  
Send like two to the body, watch him drop and wait til the morning  
Catching Ubers with Glocks, it ain't no driving, I got a warrant  
They gon' sweep a nigga up if they see me riding in that foreign  
None of that hiding, they know we coming  
Send like two to the body, watch him drop and wait til the morning  
Catching Ubers with Glocks, it ain't no driving, I got a warrant  
They gon' sweep a nigga up if they see me riding in that foreign
