

# Last Time

OMB Peezy

Leave me now, just leave me now  
That's if your only plans is to leave me down  
I would follow any road that you lead me down  
It feel like we ain't goin' nowhere  
You said last time would be the last time you leave me  
It feel like we ain't goin' nowhere  
But last time was worser than the last time you did me  
It feel like we ain't goin' nowhere

Ooh, feel like this road gettin' a lil' longer  
I just wanted you to be mine, I never wanted to be your owner  
We ain't goin' nowhere, you ain't goin' nowhere  
You said last time you a goner  
I beat that pussy and you know stray kids always seem to find a way home  
You called me a dog and I was appalled, we walked through the mall, you havi  
n' it all  
I gave you anything you want, how could you let it come out your mouth?  
You called me a dog and I was surprised, you told me, "Hop in," and I went o  
n a drive  
I ain't even know that it was a rollercoaster, I still hopped on the ride fo  
r you  
I'm a hopeless romantic, showed that side to you  
For real love, it ain't no limit to what I would do  
If I felt like I ain't have a vibe with you  
Then this is what I would do

Leave me now, just leave me now  
That's if your only plans is to leave me down  
I would follow any road that you lead me down  
It feel like we ain't goin' nowhere  
You said last time would be the last time you leave me  
It feel like we ain't goin' nowhere  
But last time was worser than the last time you did me  
It feel like we ain't goin' nowhere

Uh, last time was worser than the last time  
First class on a plane, I'm textin' you just for to pass time  
Should've known you wasn't shit, only wanted me 'cause I brought them racks  
out  
Know you materialistic, I can tell by the shit you ask 'bout  
With this mic, I'm so passionate, it's the only thing that I talk to  
My demons comin' after me, I been clutchin' at my walk-throughs  
I kill shit over my mind, play with my heart, then I gotta off you  
For you, I'd go on any ride and any walk too, but we ain't goin' nowhere  
Believe in balance, but sometimes, life ain't so fair  
If you my bitch, want you to ball like you got no hair  
If I show my love, how you act like I don't care?  
Fuck it, I ain't gon' go there

Leave me now, just leave me now  
That's if your only plans is to leave me down  
I would follow any road that you lead me down  
It feel like we ain't goin' nowhere  
You said last time would be the last time you leave me  
It feel like we ain't goin' nowhere  
But last time was worser than the last time you did me  
It feel like we ain't goin' nowhere

It feel like we ain't goin' nowhere  
It feel like we ain't goin' nowhere  
It feel like we ain't goin' nowhere  
Baby
