

Right Here

OMB Peezy

I'ma get that pussy right here

All that you want, I got it right here (Right here)
If you lookin' for the realest nigga, I'm right here (Right here)
Have you ever been fucked like this? I doubt it
I'ma pull on your hair just like you like it
We can go 'til the sun come up, I'ma get that pussy right here (J-J-J-J-J.R.)

Peezy, everything you lookin' for is right here
She barely try to fight it as I rip her out her night gear
Your ex nigga was bummin' with no money and no life skills
Lil' Peezy got you shinin', I'm the one showed you how that ice feel (Forreal 1)
Look, lay back and relax, I'm 'bout to show you something (I'm 'bout to show you something)
Turn around, hit from the back but let me know you cummin'
This dick controllin' a baddie, she don't even know she runnin'
Nasty, twenty-years-old but fuck like a older woman
Classy, take her out the country, show her the world
And she ride the tool, she know I keep a .40, no Earl
I'ma drench you in diamonds, you gon' catch it, ain't no pearl
She lookin' for a real nigga, I'm lookin' for a hot girl, Peezy

All that you want, I got it right here (Right here)
If you lookin' for the realest nigga, I'm right here (Right here)
Have you ever been fucked like this? I doubt it
I'ma pull on your hair just like you like it
We can go til' the sun come up, I'ma get that pussy right here

First of all, you thicker than a Snicker
That pussy fat, the baddest out the litter
I'm nasty long when we get on the liquor
I bust it down to basic fundamentals
Let me flip that ass around on this beach, yeah
Deep, deep stroke, fuck you good 'til you're cummin'
Then I take it out and your mouth, I entered it
Jack, jack, jack on my collar 'til I'm cummin'
You're like a pro, and girl, I'm a vet
Come and let me give you good sex
Don't think you know who you fuckin' with, yeah

All that you want, I got it right here (Right here)
If you lookin' for the realest nigga, I'm right here (Right here)
Have you ever been fucked like this? I doubt it
I'ma pull on your hair just like you like it
We can go til' the sun come up, I'ma get that pussy right here

Look, right now, it ain't no waitin'
I see them bitches hatin'
No trippin', she know she my baby
It ain't no replacin', nobody ride it like you do
The way I'm stuck on you feel like you gotta do voodoo
Roll that dope up and you roll wit' me
You the hottest ass I can see
Don't follow you, you don't follow me
But we fuckin', they ain't gotta know that

One day it's comin', because I love you, I gotta show that
That shit ain't my business so leave your pants right by the doormat
And I got what you need but I don't need shit but your heart, baby
Come holla at me when you need a new start, baby
Over you, me and God can go to war, baby
Can't play me, mind sharper than a dart, baby

All that you want, I got it right here (Right here)
If you lookin' for the realest nigga, I'm right here (Right here)
Have you ever been fucked like this? I doubt it
I'ma pull on your hair just like you like it
We can go til' the sun come up, I'ma get that pussy right here
