OMB Peezy

Huh, look  
That boy Cassius

You don't feel my struggle  
So you don't feel my hustle  
You don't know what I done been through  
All the niggas I done tend to  
All the shit that I got into  
Made it hard for me to bubble, man  
This shit for all the people I done lost, nigga, yeah  
This for the ones that they forgot about, nigga  
You in that struggle, I know it's hard to make it out, nigga, but look  
Keep on grinding, promise you gon' make it out, nigga (Look)

Baby, I'm gone  
Tonight I ain't comin' back home  
Probably won't answer my phone  
Tried to divorce this street shit but I can't leave her alone  
This mic the bitch I vent to when I be feeling alone  
But I can't shake this cold feeling that the streets where I belong  
What's going on? It seem like every night I can't even sleep  
Dropped in the rain, blinded by the pain, I can't even see  
A street preacher, call me Pastor P, I can't even preach  
Feel like I'm fasting, my mind blasting, I can't even eat  
Stuck in the war but look, I got a K on my shoulder  
I used to say when I get older I'ma be that nigga  
But I know some plans don't go how they 'posed to  
Can't fuck with you  
How you go down and tell on your soldiers?  
Fuck the system  
How you gon' judge us if you don't know us?

Hope they ain't mad when they see me  
What you know 'bout beefin' with the next street  
Y'all used to rock, now it's beef  
Choppers rockin' you to sleep, this Bible shit what I speak  
My cuz showed me how to flip packs and cook cocaine

But I don't blame none of them niggas, Boosie chose this lane  
How did He let me make it when I used to curse the teacher?  
He gave me money but gave me diabetes  
Real niggas pray for me
