

One More Time

OMD

I didn't think I'd love you like the past
'Cos everything you gave me didn't last
I never heard a woman calling out my name
With the love and power and the passion that you gave

So hold me in your arms and say you're mine
And you can break my heart just one more time

I couldn't bear to see your face again
It takes me years to overcome the pain
I'm praying to the sky above
Never let me ever fall in love

So hold me in your arms and say you're mine
And you can break my heart just one more time
