Talking loud and clear

D

Saying just what we feel

G

Lying in the grass

D

With the sun on our backs

G

It doesn't really matter

D

What we do or what we say

G

With every little movement

D

We give ourselves away

G G D G G D

G

Opposite and opposite

D

Decisions are reversed

G

Facing one another

D

With words that couldn't hurt

G

With every little word

D

You're getting closer to me

Talking loud and clear

[G]

Saying just what you feel today

G G D G G D

Talking loud and clear

Saying just what we feel

Lying in the grass

We've got time on our hands

Body next to body

With silence all around

We understand each other

But didn't make a sound

Promises and promises

Of vows we shall return

Facing one another

I thought my heart would burn

You turn to move away

But then get closer to me

Talking loud and clear
