

# Applause

Omen

I like the way that she walk  
Somebody giving her a round of applause  
If you heard how she talk it will make you wanna get in her draws  
If you could see what I saw, she like nothing I've ever seen before  
I can't find a single flaw somebody give that girl a round of applause

Wish I had more hands like Goro or More so  
I could explore that ass face chest and torso  
She got a rich body make em say poor soul  
'Cause if you go in than it's gonna be fin like dorsal  
My friend told me just whip out the Porsche low  
Reality tv ride it's all for show  
Said she never cheated but gave me the door codes  
And if you go down I advise you bring a snorkel  
Girls get wet around me like fiji  
I say I'm XV and they never believe me  
I'm the prez but my PR make it look easy  
Modern day marvel. but they know me in DC  
My body scream excuse me  
Buttercup skin, I be calling her reeses  
And the stomach like BG's  
We down on the floor  
She even made a square give a round of applause

So I can I get an encore  
If she a very freaky girl I let her meet my mom for  
'Cause baby fly like a condor  
'Cause european chicks French kisses on my body bonjour  
And the skin is a soft more but I'm a fresh man  
We're tryin' to make a junior  
I'll stay with her till I am a Senior citizen  
Her legs wiggling in the middle of my maneuver  
Yes, She got junk in the trunk she break it down like a step brothers top bu  
nk  
With my own head doctor on call  
I gotta make it clap like busta spliff and Sean Paul  
For real y'all, she like the best chick ever  
So go on show your love and put your hands together  
A standing O 4ize at a show in the front row steady yelling out BRAVO!

Ok Ok I clap it up  
She my opportunity I can't pass it up  
And if she got friend that want to bend  
We can hit the back seat of the benz and lap it up  
I'm actin up I want a score at home  
I got the wood bat up  
I ain't the dog but she like me cause I'm tatted up  
And I give it to her till she say she had enough  
I want to crash in that ass, no hit and run  
And her mama look good that's where she get it from  
I want to get it done, I know her face fine  
But I just want that lip and tongue  
Damn, that girl got that thighs  
And legs like Tuesday at Popeyes  
But instead I want breasts 'cause I like D's

So she pointed at her chest and said, "like these? "  
I said I'm quite pleased hit the lights please
