The neighborhood ball player
Quiet [?] round them girls
Who knew that you've been flying round the world
I never call for nobody see I did a lot of baby steppin

They can do [?] already this blesses I can [?]
I've seen a lot in my life the kind of things make you rewind twice
Now is lime light but wait you see something is missing
Let me tell you out these drakes of position
I'm on tour chillin [?] with my [?] back home
[?] call my mama I guarantee the changes of perception
See I ain't really got a clue fans coming to my shows with more money
than I do
And it really gets no really in that
Gotta know I'm feeling now if I'm giving you that

I need a ceremony 'cause I didn't came a long way
But even further to go but before I finish a show
I think I need a ceremony, I need a ceremony
Cause I need a ceremony 'cause I came a long way
But even further to go but before I finish a show

Somebody tell me what's confidence without beliefs
What's a city full of games without a chief
Thinking gotta made it this far I have overcome the undertaken
Came through the storm but another's one waiting
Under dog love from fans hoping it ain' t [?]
Turn around and yeah from now [?] full of hatery
I've seen happing before so if I got it face it
I'm ready I'm still looking for miss right
Or release miss night for the right
Nobody knows this life could like
Family functions friends waiting for sacrifice
All just in right [?] worst in them mike
But this is all I got and this is all I have
I let my work and my crib [?]
A south side city boy is my testimony
I think it's time we had a ceremony,

I need a ceremony
Hey hey 'cause I didn't came a long way
But even further to go but before I finish a show
I think I need a ceremony, I need a ceremony
Cause I need a ceremony 'cause I came a long way
But even further to go but before I finish a show
