

Era Of Crisis

Omen

Yeah!

Across the seven seas
Other side of the world from me
They sit in their disdain
For the land of the free
They spawn an evil plan
Against the American way
The target in their sight
They sit and wait for the day

Era of Crisis, urgency rises certain of doom
Era of Crisis, world compromises extinction too soon
Era of Crisis, no compromises, destruction it looms
Era of Crisis, actions decisive, humanity doomed

Riddled in their hate
On the verge of a nuclear war
They wield the hand of fate
To attack on our own shore
Plotting our demise
They wanna watch our cities burn
Death from the skies
And give to us what we deserve

Era of Crisis, urgency rises certain of doom
Era of Crisis, world compromises extinction too soon
Era of Crisis, no compromises, destruction it looms
Era of Crisis, actions decisive, humanity doomed

That fateful morning, without warning two towers standing tall
Caught by surprise, spit in our eyes as we had to watch them fall
With our backs against the wall

Across the seven seas
Other side of the world from me
They sit in their disdain
For the land of the free
Plotting our demise
They wanna watch our cities burn
Death from the skies
And give to us what we deserve

Era of Crisis, urgency rises certain of doom
Era of Crisis, world compromises extinction too soon
Era of Crisis, no compromises, destruction it looms
Era of Crisis, actions decisive, humanity doomed
Humanity is doomed
