

Fighting The Feeling

Omen

Nobody told me [?]
Every day is like this
Nobody told me [?]
Every day is like this
Nobody told me [?]
Every day is like this

Would you believe me if I told you that I never cheated
Probably not, but I swear you it was no misleading
I got some things that I've been dealing with
Then make me question, is my mind [?] innocent?
She got my heart true, but she got my hormones
Imagine us screaming the sounds that are [?]
Lord knows that I love her so
But it seems as time passes I wonder more
What are these other women like
Don't even wanna know 'em
I just wanna spend the night
I know that that's immoral
But is what I feel like, I'm trying to be truthful
But all you do is lie to me and say the feeling is mutual
Holding on the pride, while I'm holding on the feeling
[?] have to be unfaithful to my dear
And I can't fight your feeling now
Don't even know what I'm feeling now!

I'm fighting the feeling
Every day I'm on the verge
And I can't seem to keep the urge
Fighting the feeling, I can't speak what's on my mind
Guess it's been [?] over time.
Fighting the feeling, it almost got me all confused
All I know is that I don't wanna lose!
Fighting the feeling, I'm fighting the feeling

I know I feel guilty, I kinda think I'm wrong
Cause I just want you to stay while I linger on
And that ain't fair at all, we're in a [?] now
And I barely call and somehow you still got my soul [?]
But you don't care at all, don't wanna hear my song
You heard it all alone, I'm called up in a [?]
Should be going like colored like the Angelo's palms
But baby I'm still him, baby I'm still demon
Same old G, I'm just hoping you're still patient
Same old me, been the same since [?]
And I'll never change [?]
I'm kinda paranoid, I don't trust [?]
I've been feeling something, I wanna burn from
Like salt in the sand, my heart is undone
Busy wondering [?] cause lost come from

I'm fighting the feeling
Every day I'm on the verge
And I can't seem to keep the urge
Fighting the feeling, I can't speak what's on my mind
Guess it's been [?] over time.
Fighting the feeling, it almost got me all confused

All I know is that I don't wanna lose!
Fighting the feeling, I'm fighting the feeling

You never told me every day, every day is like this
No, nobody told me that would be days like this!
Now, how do I clear mixed emotions
Think all the momma now, I think I need some different coaching
Or wait too long, see how she loved me
That's probably cause I left town
Wonder, should I text her
But I don't wanna stress her
With all the stress I'm feeling now
But all the stress I feel now might leave me on a stretcher
Oh wait, extra, extra my best friend is a [?]
I also lost my job, through my heart I need a [?]
And now I need her more than ever
But on the flip sides still think [?]
I swear that sometimes I'm so dumb [?]
Don't even drink, yet I'm so drunk
This is weird, though I never, ever acted on my impulses
I told you I never cheated, but listen closely
You see, everything you know is about your actions
Sometimes you can have an inappropriate attraction!

I'm fighting the feeling
Every day I'm on the verge
And I can't seem to keep the urge
Fighting the feeling, I can't speak what's on my mind
Guess it's been [?] over time.
Fighting the feeling, it almost got me all confused
All I know is that I don't wanna lose!
Fighting the feeling, I'm fighting the feeling
