

Again And Again

OmenXIII

Pushin up dasies, feeling complacent
I know what I want but I don't know what I gotta do
Tell me between me and you
Fuck what it is, Fuck what it's not
Just tell me just tell me if I'm the one you need in life

Am I the one you need in life, death
Remember when you used to cry on my chest
Up set, breathless, rough sex
Everythings tossing and turning with stress

Now every day is a day where we struggle through pain
I wanna die
Do you believe me when I tell you I wanna die

Pushing up dasies, Feeling complacent
I know that you love me, I feel like you hate me
Fuck what it is, Fuck what it's not
Just tell me just tell me if I'm the one you need in life

Just tell me what you need in life, death
Remember when you used to cry on my chest
Up set, breathless, rough sex
Everythings tossing and turning again and again

Again and again
