

Another Moment

OmenXIII

The world it seems so different but I know it never changed
I'm just trying to transition but I'm stuck in my old ways
Guess I'm finally getting older can't nothing ever stay the same

But I don't even wanna be here why it gotta be this way?
Why I gotta think this way?
I'm doing me so I do not behave
I'm doing things I might lose what I've gained
I'm acting strange and I know it I hate it
But I'm just living my life and I don't want to change it
I'm not gonna die because I gotta make it
I gotta make something about it
It's time to make up for the time that I've already wasted away

And another moment is gone
The past is just a memory but it's just so hard to move on
And another moment is gone
The past is just a memory it's so fucking hard to move on

I just wanna say fuck the world lay down and close my eyes
I'm picking up the pieces from the memories in my mind
I'm writing books no thesis but it's to the beast that I like
It's to the beast that I rhyme
I bob my head to the time
Where the fuck has the time gone?
Where the fuck has my life gone?
I'm watching dust go to
I struggle like I'm on my own
I'm never alone cause I'm with my thoughts
I fall asleep with the lights on
Just gotta get shit off my mind so I grab a pencil and I write
the songs like

And another moment is gone
The past is just a memory but it's just so hard to move on
And another moment is gone
The past is just a memory it's so fucking hard to move on
